Professional Summary

MCA graduate with a genuine passion for new technologies and problem-solving. I have completed a one-month industrial training at LTIMindtree, where I gained practical experience in programming and industry behavioral practices. With a strong foundation in software development and a continuous drive to learn, I thrive in collaborative environments and aim to contribute to innovative, real-world solutions. I'm eager to apply my skills and training to make a meaningful impact in a dynamic tech team.

Education

SRM Institute of Science and Technology

Masters, Computer Applications.

Projects

SMARTBIZ MANAGER

SmartBiz Manager is an enterprise-level management system designed to streamline core business operations like employee, inventory, and client management. Built with C#, ASP.NET Core, SQL Server, HTML, CSS, and JavaScript, it provides secure and scalable backend services, enabling efficient data handling and role-based access control within a real-world business environment.

EXPENSE TRACKER

Created a Python-based Expense Tracker using Tkinter and MySQL, allowing users to efficiently manage daily expenses. Implemented user authentication and RESTful APIs for secure expense management, enhancing financial decision-making.
